

**20/02/2023 - Z-Upgrade 2.05a PATCH NOTE**

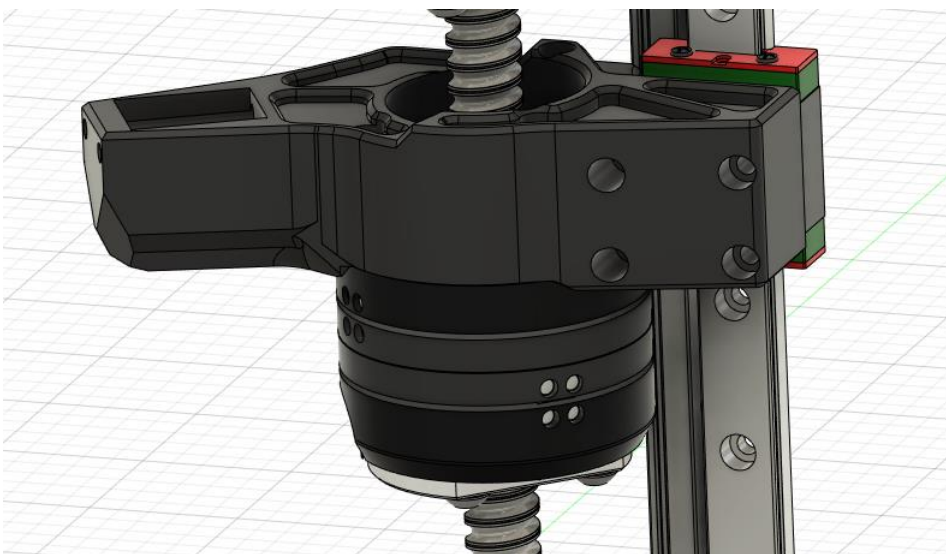

1-[FIX] Holes resize from 5mm to 6.4mm for Ruthex heat inserts :

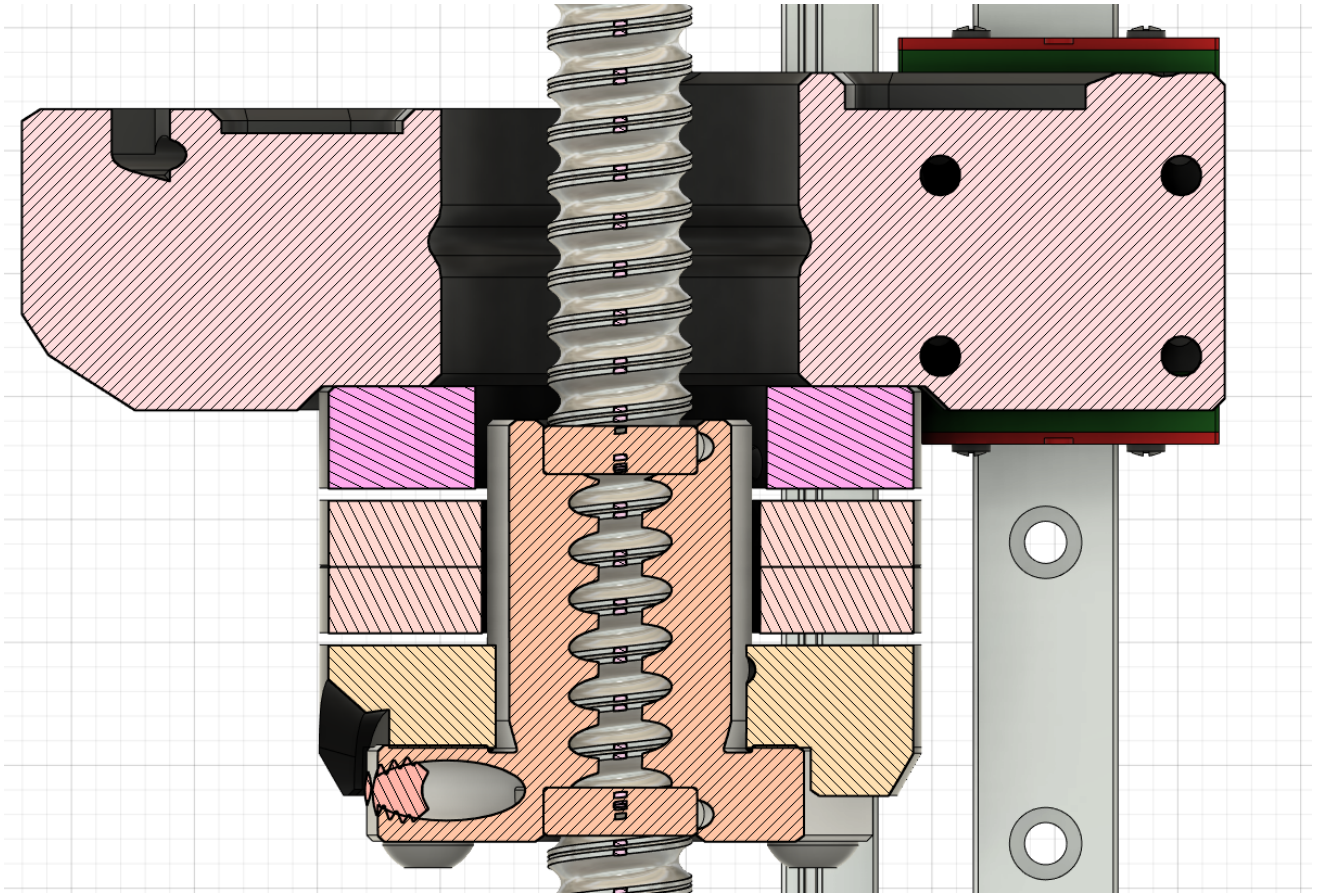

2-[FIX] Rear NEMA17 holes refitted to adapt a m3x35 instead of a short lenght m3x30 :

3- [ADD] New front arms designed to adapt the 3.1 rails layout, opening compatibility to RR Stock 2.0 Enclosure

4- [ADD] Those new arms featured a shorter thickness to gain 5mm more over Z distances, and has a different structure to be more rigid due to the less stable fonction over the 3.0 layout (IMO)

5-[FIX] -3mm holes recess to have more of the screw inside the T nut on the back retainer with m6x14 (stock RR)
